contraction, it is to be noted, has had carcely more than an appreciable elect on the money market, but it has stulted in a flow of money to this center from int vior points, and this really as been the influence that has kept also on a stable basis. rates on a stable basis.

The surplus reserve is about \$6,000.000 for excess of the amount reported when boars and deposits were at a maximum. Considering the exports of gold and constant absorptions of funds by the restairy, this is a very satisfactory showing. The factor which will govern the money market in the imm dilate future is the problematical export of specie in payment of American subscriptions to the British loan. It would be dide to estimate with any pretension of accuracy the volume of gold which will be shipped, but that more or less gold will go out is regarded certain.

With the reserve at its present figure, and with the certain knowledge that makes in money rates will attract interior fruds, the banks can afford to part with considerable specie without

cart with considerable specie without aconvenience. The season is approaching when supplies of gold will be forthoring from original sources—that is, join Alaska, etc., and these will seave o replenish demestic losses. Then, too, a probability, a reversal of the casury relations with the banks, so was excess receipts are concerned.

Condition of the Treasury. Washington, April 27.—Today's state-tent of the treasury balances, exclu-ve of the \$150,000,000 gold reserve in the division of redemption, shows:

Available cash balance, 3156,161,890;

rold, \$75,346,483.

Large Sale of Stocks.

New York, April 27.—The New York took exchange intring adjourned from ast evening to Monday morning, to explorary quapters in the produce exchange building, speculative operations in securities centered on the concludated stock and petroleum exchange. The trading was on an unprecedented scale for a neit boilday, 264,320 thates being negotiated. Not only were

EX MAYOR A FUGIVIVE.

Numerous Forgeries Were Committed by Him at Little Falls N. Y. Little Falls, N. Y. April 27 -A startling feature of the series of forgeries ling feature of the series of forgeries alleged to have been committed by exampler Hadley Jones of this city, who is a lugitive, was disclosed when Jones safe was opened by an expert. In the safe was opened by an expert. In the safe was found a book containing blank stock certificates of the National Herkmer county bank of this city. Seventeen of the certificates had been used and some of those remaining bore the names of W. G. Milligan, president, and Albert Story, cashler: It is alleged these signatures are forgeries.

It is believed by the police that most of the certificates which were used were put up as collateral for loans negotiated at various banks throughout the country. The amount of stock is

negotiated at various banks throughout the country. The amount of stock issued will not be known until the banks make reports, but it is estimated here that the total will be at least \$25,000.

The National Herkimer county bank is the largest institution of its kind in this county. Jones wife, who is also missing from the city, and is believed to have joined him, was a stockholder in the bank, and Mr. Story, the cashien, whose name appears on the certificates, was her uncle. Jones got one of her certificates, and, it is said, had a new stock certificate book printed by a Buffalo printing firm.

TOOK DOSE OF POISON.

Strange Death of Well Known Newspaper Man in New York. New York, April 27 .- John M. Elliott New York, April 27.—John M. Elliott, a member of the Elliott Press, a printing company of this city, died of morphine poisoning in an up-town drug store early this morning. A stranger had brought him into the store, and for hours after the death the police were investigating the case.

This afternoon Emil P. Augot, a Maiden Lane diamond seller, voluntarily, told the officers that he was the man who was with Elliott. He says he spent several hours last night with him

man who was with Elliott. He says he spent several hours last night with him and that Elliott drank a good deal. Towards midnight Elliott got him to buy some morphine for him at a drug store, and this he took while Augot was not looking. Augot took him to the drug store to get medical treatment for him and then went home.

Elliott, was well known in political circles, his company printing the Tammany Times. He was at one time connected with various lowa newspapers, and had been associated, it is said, with the Des Moines Register. He after wards conducted papers in Deadwood, S. D., and was for ten years or more a resident of Chicago.

WILL TRY TO GET MONEY Suit Will Be Brought by Government

to Recover from Capt. Carter. New York, April 27 .- A special to the Herald from Washington says: At-torney General Knox, acting under instructions from the president, purposes to institute proceedings to recover some of the money which former Captain Center obtained from the government in connection with the fraud growing out of the improvements in Savannah harbor.

out of the improvements in Savannah harbor.

A secret conference between Attorney General Knox and the federal officers, who have been at work on this case has been in progress at the department of justice during the present week to map out a plan of action. Without reflecting upon his predecessor, Mr. Griggs, the new attorney general was given to understand that prompt action to recover some of the government funds was jenuired. It is understood he was given the impression that too much time had been wasted in prosecuting the case of the former captain.

Bank Examiner Johnson is said to have located in banks in Savannah. New York and other cities sums aggregating about \$750,000, which are said to be draced directly to former Captain.

Reports of Extravagant Demands on China Untrue.

AMERICAN PRESS WRONG

COMPLAINS OF INJUSTICE DONE BY PAPERS IN U. S.

Berlin, April 27.-Cable dispatches from America, especially those reprinted in American, imputing to Ger many Shylock tendencies, as insisting on the pound of flesh in China and also representing Germany's indemnity as higher than the facts warrant; have created here, both officially and privately, disagreeable surprise, Officially, it was pointed out to the correspondent of the Associated Press that the figures all along quoted in the Ameri-

ingures are along quoted in the American press are wrong. The correct indemnity figures are those cabled to the Associated Press April 12, showing Russia's demands to be \$80,000,000 marks, France \$20,000,000 marks, Germany 240,000,000 marks, the United States, 100,200,000 marks, the United States, 100,200,000,000, etc.

Germany's official figures presented to the reichstag show that Germany has already spent more than she asks. The above figures certainly do not include the private claims put forth by the various powers. How large those will be mobody yet knows, because they are uncollected and unpresented. Papers here question whether the United States spent 190,000,000 marks. They also point out that the transport of the German troops such a long distance was expensive, refer to the murder of Baron von Ketteler and say that the fact that Count von Waldersee was appointed commander-in-chief of the alied forces rendered it necessary for Germany to send proportionate contingents. The view preyails here that the American reproaches and intimations against Germany are unjust, Official soutces here say thacy are unable to account for "the systematic fill will in the matter shown by the United States press."

While it is true that everybody here

while it is true that everybody here is ured of the China business the newspapers point out that Germany cannot withdraw her troops until the Chinese caurt has given evidence by more than words of its readiness to fulfill the conditions of peace imposed by the concert of the powers. The Colonge Volks Zeitung says:

Boxers Will Break Loose Again.

"Judging from the latest news it is plain that the Boxer murder system ogainst missionaries and Europeans will immediately break loose on the retirement of the allies."

The correspondent of the Associated Press learns positively that the negotiations for the renewal and modifications of the dreihund, which expires in May, 1984, will be conducted during the first half of 1901 and the whole of 1902. The emperor enjoyed his trip to Bonn immensely. He visited and conversed pleasantly with all his old Bonn acquaintances of his student days and distributed many triding sifts and mementoes among them.

The emperor used his stay in Bonn to inform himself thoroughly regarding the Dusseldorf exposition of 1902, for the Rhenelch mining, from and engineer industry were insufficiently shown at the Paris exposition because of lack of space. Emperor William is going woodcock shooting at Wartburg, and the empress will go in a few days to the Chatteau Belleville, where the younger of her children are staying. Later she intends to go with the children to Baden.

The Dowager Empress Frederick has

dren to Baden.

The Dowager Empress Frederick has sent the Counters von Perponeher to Griesheim to express sympathy with the families of the victims of the explosions there and distribute gifts. The health of the dowager empress just now is fairly good.
